SUMMARY

Backend Engineer with 4+ years of experience designing and building scalable RESTful APIs and backend systems using PHP, Laravel, MySQL, Redis, and AWS. Strong background in API design, database design, caching, payment gateway integrations, and performance optimization, with delivered improvements of 25–40% through query optimization, indexing, and system enhancements. Currently exploring AI-powered integrations using OpenAI APIs and RAG-based semantic search systems.

TECHNICAL SKILLS

Backend: PHP, Laravel, REST APIs, RESTful APIs, API Design, Backend Architecture, System Design, JWT Authentication, Redis, Queues, Caching

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Database Design

Frameworks: Laravel, CodeIgniter, Yii2, Symfony

Architecture: Scalable Backend Systems, Performance Optimization, Microservices (working knowledge)

AI/LLM: OpenAI API, RAG, Embeddings, Semantic Search

Cloud/Tools: AWS (EC2, S3, RDS – basic), Docker, CI/CD, Git, Linux

Other: Payment Gateway Integration, API Integration, SDLC, RBAC

Frontend: JavaScript, Vue.js, HTML, CSS, Tailwind CSS, Bootstrap

EXPERIENCE

Houzeo

May 2025 – Present

Software Developer (Laravel)

Thane, Maharashtra

- Develop and maintain backend services and REST APIs for a high-traffic SaaS platform.
- Improved system throughput by 30%+ through Redis caching, query optimization, and API enhancements.
- Reduced database query latency by 25%+ using indexing strategies and schema optimization.
- Built proof-of-concept integrations using OpenAI APIs, RAG workflows, and embeddings-based semantic search.

Zyntric Tech

Feb 2024 – Apr 2025

Senior Software Developer

Navi Mumbai, Maharashtra

- Collaborated with a team of 4+ developers to improve platform scalability and performance by 30%.
- Designed and developed REST APIs and backend services supporting multiple business-critical web applications.
- Built and maintained backend integrations and asynchronous processing workflows.
- Set up CI/CD pipelines, Dockerized applications, and managed cloud deployments on AWS.

Parasight Solutions

Mar 2022 – Jan 2024

PHP Developer

Kalyan, Maharashtra

- Developed backend systems using Laravel and CodeIgniter, improving development efficiency by 25%.
- Integrated Razorpay and PayU payment gateways, improving payment success rates by 15%.
- Built ERP and School Management Systems with RBAC and REST API integrations, improving operational efficiency by up to 40%.

PROJECTS

[Laravel RAG API](#) | *Laravel, OpenAI API, REST APIs*

- Built a RAG backend using Laravel, OpenAI APIs, embeddings, semantic search, and REST APIs.

[ERP System](#) | *Laravel, Flutter, MySQL*

- Developed an ERP platform using Laravel, Flutter, MySQL, JWT authentication, RBAC, and REST APIs.

EDUCATION

Mumbai University

2019 – 2022

Bachelor of Science in Information Technology (B.Sc IT) — CGPI: 8.87

Maharashtra, India
