

Abu Osama Shaikh

Senior Backend Engineer – Laravel – PHP – Redis – AWS – Scalable APIs

9136393967 | usamashaikh9186@gmail.com | Mumbra, Thane, Maharashtra

GitHub | LinkedIn | LeetCode | Portfolio

Summary

Backend Engineer with 4+ years of experience building SaaS applications, ERP systems and RESTful APIs using Laravel and PHP. Experienced in designing scalable backend services, optimizing database performance, implementing Redis caching strategies and managing AWS deployments. Delivered measurable improvements in throughput, latency and operational efficiency while mentoring developers and contributing to architecture decisions. Building AI-powered applications using OpenAI APIs, Retrieval-Augmented Generation (RAG), embeddings and semantic search.

Technical Skills

Backend: PHP 8+, Laravel, REST APIs, API Design, Authentication, JWT, RBAC, Redis, Queue Workers, Background Jobs, Caching

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Query Optimization, Database Design, Schema Design, Indexing

Architecture: Scalable Backend Systems, Service-Oriented Architecture, Distributed Application Design, Event-Driven Processing, SOLID Principles, Design Patterns

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, CI/CD, Git, Linux, Nginx

AI/LLM: OpenAI APIs, RAG, Embeddings, Semantic Search

Frameworks: Laravel, Symfony, Yii2, CodeIgniter

Testing: PHPUnit, Feature Testing, Unit Testing

Frontend: Vue.js, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS

CS Fundamentals: Data Structures, Algorithms, OOP, System Design

Experience

Houzeo May 2025 – Present
Software Developer (Laravel) Thane, Maharashtra

- Develop and maintain backend services supporting high-traffic SaaS workflows used by thousands of active users.
- Implemented Redis caching strategies reducing database load and improving application throughput by over 30%.
- Optimized database performance through query tuning, indexing and schema improvements reducing latency by more than 25%.
- Built and enhanced REST APIs supporting internal platform integrations and business-critical workflows.
- Evaluated OpenAI APIs and Retrieval-Augmented Generation architectures through proof-of-concept initiatives for semantic search use cases.

Zyntrix Tech Feb 2024 – Apr 2025
Senior Software Developer Navi Mumbai, Maharashtra

- Led and mentored a team of four developers delivering enterprise backend applications.
- Designed modular backend services and REST APIs supporting independent deployment and future scalability.
- Implemented asynchronous processing workflows and queue-based jobs improving reliability and throughput.
- Managed Dockerized deployments and AWS infrastructure including EC2, S3 and RDS environments.
- Collaborated with stakeholders to define technical requirements and backend architecture decisions.

Parasight Solutions Mar 2022 – Jan 2024
PHP Developer Kalyan, Maharashtra

- Developed ERP and School Management platforms using Laravel and CodeIgniter.
- Designed REST APIs consumed by web and mobile applications.
- Integrated Razorpay and PayU payment gateways improving payment completion rates by approximately 15%.
- Implemented RBAC systems, authentication workflows and business automation modules improving operational efficiency by up to 40%.
- Worked across multiple concurrent projects while maintaining delivery timelines and quality standards.

Projects

Laravel RAG API
Laravel, OpenAI API, REST APIs – [GitHub](#)

- Designed and built a Retrieval-Augmented Generation backend using Laravel, OpenAI APIs, embeddings and semantic search.

ERP System
Laravel, Flutter, MySQL – [GitHub](#)

- Architected and developed an ERP platform using Laravel, Flutter, JWT authentication and RBAC.

Education

Mumbai University 2019 – 2022
Bachelor of Science in Information Technology (B.Sc IT) – CGPI: 8.87 Maharashtra, India
